Thanksgiving
A TIME FOR
UNDERSTANDING

THE BLURB is published monthly by and for the members of The Phil-Mont Mobile Radio Club, Inc. Our purpose is to promote Amateur Radio in general and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladly exchange publications with other clubs and requests should be sent to The Editor. THE BLURB subscriptions are available to non-members for \$6.50 addressed to the Treasurer. The Club meets on the first Monday (mostly) of every month at 8:00 p.m. in the Franklin Institute, 21st St. & Benjamin Franklin Parkway, Philadelphia, Pa.

ALL VISITORS ARE WELCOME !

1985 OFFICERS

President - Howard "Gil" C. Gilpin, W3SRU, 652 Sumneytown Pike,
North Wales, PA 19454
Veep - C. "Rick" R. Spencer, III, N3DHI, 2809 Mt. Carmel Avenue,
North Hills, PA 19038
Secretary - Virginia "Jinny" J. Haring, W3IIN, 2113 Edgehill Drive,
Furlong, PA 18925
Treasurer - Edward "Ed" Misarsky, KB3IV, 13 Poe Avenue,
Wyncote, PA 19095

Directors - W3ZPP (85), K3GNM (85), W3BBB (86), W3VVS (86),
W3IIM(A), & N3ADI(A).

THE CLUB STATIONS -

W3RQZ, 1176 Old York Road, Abington, PA 19001: Trustee- W3VVS
W3QV, 8200 Ridge Avenue, Philadelphia, PA 19128: Trustee- W3BBB
W3TKQ, The Franklin Institute, Philadelphia, PA 19103: Trustee- W3PWG

EDITOR- Woody Haldeman, W3PST, P.O. Box 207, New Britain, PA 18901
Art Work- Sam Kuncevicz Contributing Editors- W3IIM & WB3KOJ
Typist - W3IIN Swap 'n' Shop - W3BBB

DEADLINE - To be assured of current publication, all copy MUST be in the hands of the EDITOR by the fifteenth of the month, or, at the Bored of Directors' Meeting, whichever is earlier.

New Phil-Mont Net Schedule

Sunday	Mon	Tuesday	Wednesday	Thursday	Fri	Sat

Coming in January:			from your			
10:45 14.??? MHz SSB			Stop, Shop & Swap Net			

from the rear seat - - -

It is my sad duty to report to you, yet the passing of another Phil-Monter, Lawrence LePage, W3QCV. We will have more information for you in our December issue.

I sure enjoyed the last regular meeting. In doing the research I was surprised at how much I didn't know. In an effort to keep it within the prescribed time I skimmed over a lot, and, I lied a little. I do know something about CTC. So, if you have any further questions, I'll be glad to answer them, or get an answer for you.

73,
Woody
w3pst

P R E Z S E Z part 2

Here are the results of last month's contest in which we offered you the ability to become "Editor For The Day" if you wished to take editorial liberties with Gil's friendly, but lacking, Prez Sez for October:

I TOO WAS THERE
de W3SRU

It is a difficult task to follow up John's, W3SAI, classic article excerpted from the September 1955 Blurb and reprinted in the August 1985 issue of the Blurb. However, I thought it appropriate to mention another similar type of operation that Phil-Mont was involved in.

On a Friday in September 1972, Phil-Mont was contacted by what was then the Montgomery County Civil Defense and was requested to provide emergency communications in the Pottstown area. The area was flooded in the aftermath of Hurricane Agnes. W3BBB and company took our communications vehicle, which at that time was a converted large Blue Bird type school bus, to Pottstown and set up operations on a high hill.

Early Saturday morning, I and a number of other Phil-Monters headed towards Pottstown. I tore down my ham shack and threw all the equipment into the station wagon because I did not know what might be needed out there. Four operating positions were set up in the bus for 2 Meter AM, 6 Meter FM, 75 Meter SSB and 10 Meter AM. Stations using Gonset 2 Meter AM communicators and 10 Meter AM mobiles operated from City Hall and other locations downtown. Telephone and normal radio communications were mostly out of service or over-taxed in town. We handled communications for CD, Police, Fire, Philadelphia Electric and the State Police. Traffic was relayed to Eagleville CD using the WCAU 6 Meter FM repeater.

MINUTES
September 1985
DIRECTORS' MEETING

W3SRU opened the meeting held at the home of W3BBB, at 8:20 PM on September 18th. In attendance were W3's VVS, PST, IIM, IIN, AA, ZPP, RM, UY, N3DHI and K3GBA.

KB3IV gave the Treasurer's Report, in absentia, by telephone, which was read by N3DHI. W3IIN read the minutes of the September General Meeting. Both reports were approved as read.

W3PST reported that the Blurb was alive and well and that the new return address, for the Blurb only, is P.O. Box 207, New Britain, PA., 18901.

W3BBB reported that Phil-Mont now had an official mailing address, thanks to W3RM. It is P.O. Box 88, Abington, PA., 19001.

N3DHI said that the SB100 in Mo-Com is getting tired and that K3GNM had gone over it and put it in good shape. Rick made a motion to sell the SB100 as soon as possible as we did not need it in the van. The motion was passed unanimously.

W3RM brought to the attention of everyone the lack of control operators for the Sunday morning 80 Meter CW net. Dick also said that there were practically no check-ins on this net and he thought that it was becoming obsolete. He also said that more net controls were needed for the Tuesday evening CW practice. Dick has been doing the net all summer, by himself, and needs more operators if the net is to continue. K3GBA added that the 10 Meter AM net had been defunct since his antenna was knocked down. No one else has taken over the net control duties. Sam also made the observation that the AM net was obsolete and probably should be dropped. After some discussion a motion was made by W3BBB that both nets be dropped from the Sunday morning net schedule. The motion was passed unanimously. There will be some new nets coming up soon, possibly a Florida Snow Bird Net.

N3DHI asked that a letter of thanks be sent to Ron Cohen, K3ZKO, for his contribution of hardline for the repeater antenna project. Also, that a letter of thanks and a donation of \$25.00 be sent to the Edgehill Fire Company for the use of their ladder truck. Rick asked for a check in the amount of \$146.95 to reimburse him and W3BBB for the money they had spent on the antenna project. W3BBB made a motion that the money be taken from the Capital account to pay for the antenna project. The motion was passed unanimously.

W3BBB asked that the \$50.00 check received from MARK for the use of Mo-Com, be used to reimburse him for the purchase of new PA speakers for the van. A motion was made and passed to do so.

W3IIM suggested that a project to raise money for the club might be a club table at the PACK RATS Hamfest in October. After some discussion it was agreed that a club table would be arranged and anyone wishing to sell anything could put it on the club table with 10% of the sale price, not to exceed \$25.00, to go to the club. Donations, in good condition, will also be accepted with total proceeds from the sale going to the club. All articles for sale must be tagged with seller's call and price and either a firm or minimum price stated.

The meeting was adjourned at 10:00 PM.

Thanks to Jim and Elaine for their hospitality.

W3IIN Hon. Secretary.

THE BLURB
30 YEARS AGO
NOV. 1955

November meeting program: "Uses of Power Line Carrier Current by Public Utilities" by Fred Travers, W3JPP.

There weren't enough votes to create two new Club offices: Assistant Treasurer and Corresponding Secretary. 51% of the members must vote to pass an amendment such as this.

Epitaphs seen by W3SAI

PAX VOBISCUM

Pause and pray
For a worthless clown
Who always broke in
For a quick run-down.

IN PACE REQUIEBAT

His breath stopped short
As he inhaled a thistle
Just when he modulated
With an anonymous whistle.

AVE ET VALE

Our wrath and fury
Have laid him low
For testing his kilowatt
During our QSO.

L'ENVOI

Way down deep
Sod o'er his head
CQ'd for an hour
With his receiver dead.

Excerpts by W3IIM

NOV. 1970

November Meeting: Nominations. Program: A description of radio station WTEL by Jack Layton, W3ESQ.

Quite a furor seems to have been raised with the dues increase to \$10.00. Chief reasons given for the increase: increased postage costs and free refreshments at the General Meetings.

The auction raised about \$90.00 for the club.

"Where oh where has the NR gone?"

The 431st General Meeting of the Phil-Mont Mobile Radio Club was called to order at 8:13 P.M. on October 7, by W3SRU. Gil asked all present to stand for a moment of silence in memory of John Tinaglia, W3AWH. John became a Phil-Mont Silent Key on October 1st, after a long illness. Gil then read some excerpts from some of the articles about John that appeared in the local papers.

W3IIN read the minutes of the September 18th Directors' Meeting. KB3IV gave the Treasurer's Report. Both reports were approved as read.

W3VVS reported that there were 28 members and 9 visitors present. Paul introduced Bob Josuweit, WA3PZO; Fred Henderson; Thomas Piechoski; Lee Pamplin; N3EKR; Robert Hartzel, KA3ICY; Harry Baron, N3EMX; Everett Lee, N3ADK; Joe Dempsey, WB3JYF and XYL Karen, KA3JPQ.

N3DHI reported that he had done a complete Mo-Com inventory, including equipment serial numbers. Rick is also in the process of writing an operations manual for the set up, break down and operation of equipment for the van. Rick thanked all the people that helped at the Phil-Mont table, and all those who donated or had equipment for sale, at the recent Pack Rats Hamfest. He said that the table had been a great success and money had been made for the treasury. Gil said that the van was a great success and there were a number of visitors who were interested in setting up something similar to our van.

W3BBB said that he was going to change the codes for the time and date, to prevent the "Yahas" from bringing up the time at 3 AM and waking up half of Phil-Mont.

AK2I reported that there were 10 license examinees, with a passing ratio of 80%. Jake made a plea for more examiners and more 75 meter net controls. He said the next testing session would be on November 11th and not the 4th, as Jake and all the VE's would like to join in the Old Timers Night.

Gil introduced WA3PZO, the Eastern PA. Emergency Coordinator for ARRL. Bob said that there is going to be a National Disaster Drill on November 11, 1985, and asked Phil-Mont members to participate. He asked that Mo-Com be used at the Phila. airport during that drill. The participating counties are Bucks, Philadelphia, Montgomery, and Delaware and that about 90 operators will be needed from all the areas. There will be more information to follow de W3SRU.

N3DHI introduced our own W3PST, Woody, who presented a very interesting and informative program on The Evolution of Railroad Signalling Systems.

The meeting was adjourned at 10:09, and all enjoyed the treats provided by W3SRU.

W3IIN - Hon. Secretary

Continued from page 3

We monitored the Eastern Pennsylvania RACES Net on 75 Meter SSB. An urgent appeal was heard from the State Police located in upstate Luzerne County for supplies for refugees. We assisted in relaying the traffic and were pleased to be able to advise them a little later that an Army convoy carrying blankets, clothing and other items had left Fort Meade, MD. and was en route.

JOHN J. TINAGLIA

John J. Tinaglia, a well-known trial attorney and a partner in Ballard, Spahr, Andrews & Ingersoll, died Tuesday, Oct. 1, 1985.

Mr. Tinaglia was a graduate of Lower Merion High School. He received his undergraduate degree from Princeton University in 1947 and his law degree from the University of Pennsylvania Law School in 1950.

During World War II, Mr. Tinaglia was a lieutenant and navigator in the Air Force.

He was past president of the Philmont Mobile Radio Club.

He is survived by his wife, Stella Kellow; twin sons Jeffrey and Gregory; a daughter, Susan C. Tobey; and six grandchildren.

From "The Legal Intellegencer"

joined them later in the day at the Court House. They proceeded to operate NCS for the mobile stations operating on 29,640. They made contacts with W3YJM at CD headquarters at the high school and W3IGW at W3UCY's home. W3UCY operated the 75 meter phone net. W3IGW had a two meter station and set up contact with W3PDJ in East Stroudsburg. W3PDJ had previously rowed across the rampaging river with a two meter station tucked under his arm and had set up radio communications in a jail cell from East Stroudsburg. W3PDJ, Dick Moll, maintained the only radio communications from East Stroudsburg to the outside world. The amateur fraternity received a real boost through the efforts of one courageous W3PDJ. W3URU, W3URS, W3URT and W3UML assisted as relief telephone operators at the Court House in Doylestown and at the city jail in the water rationing department. W3YJM volunteered for the Stroudsburg area 10:30 Sunday morning picking up two 2 meter stations on the way and joining up with two more mobile stations carrying W3IGW, W3CNO and W3KCG. By taking the road specified by Civilian Defense and the proper passes, they were able to get through to Saylorsburg. They met W3MLY and W3BN with additional communicators. They were escorted into Stroudsburg over back roads. Communications were maintained with W3PDJ, East Stroudsburg for 14 hours at which time a telephone line was completed. The radio operators were then relieved of their duties and arrived home about 6 A.M. Monday morning. W3SAE arrived at Stroudsburg 1:00 Sunday afternoon. Mr. Serfass, Civilian Defense official, needed communications to the Civilian Defense Court House, W3YAZ, via radio very badly since the telephone lines were jammed with other traffic. Mr. Serfass ordered registration of all people in the Stroudsburg disaster area in order to determine those people still missing, unaccounted for or presumed dead. They set up three main registration centers in the city, one at the Stroudsburg Fire House, a second at the Fire House in East Stroudsburg and a third at the Public High School. He requested help of the radio amateurs in registering people in other inaccessible areas. W3SAE installed a monitor receiver on ten meters and a two meter communicator at headquarters to link five other stations in the area. Mr. Serfass then dispatched W3SAE and W3JON to scout the upper areas at the Pocono Mountains to survey conditions of communication and report back likely spots to locate registration centers. The remote areas were fortunately not in serious trouble, with the exception of Swiftwater Police Barracks.

Well, it is over. Phil-Mont did not need the "simulated" disaster to document their activities. A catastrophic disaster was dumped by the buckets full right into their laps. There are hundreds of homeless families, but there are people who are alive and are able to give thanks that radio amateurs are made of the stuff they are.

Continued from page 13

SATURDAY OPERATIONS - August 20, 1955

At 6:30 A.M. rescue forces were evacuating people to the Yardley Golf Course in an Army helicopter. W3SAE and W3VXN received word from Yardley on the fire company radio that several men were stranded in the river and a helicopter was needed in a hurry. Yardley fire and police could do nothing on the telephone circuit. Army helicopters were nowhere in sight. State police called in on their radio and failed to make contact. They tried smoke bombs and mirrors to signal the Whirlybird, but to no avail. W3VXN called W3QV on Channel 1 for an assist. In about 45 seconds W3QV had the Navy Control Tower, Johnsville, on the telephone. W3VXN repeated landing instructions and location to W3QV and by the time W3SAE was able to run out and tell the rescue squad that the Navy helicopter was coming, the helicopter had landed beside him. The Navy helicopter was on the ground within three minutes from the time W3QV called. W3URU, assisted by W3WML, was requested to report to the Doylestown Court House for assignment about 9:15 A.M. Saturday. They received the Yardley fire house assignment, reporting to W3SSU in Doylestown on Channel 2. They were relieved after 11 hours of operation by W3CNO and W3FUS. Additional relief was provided by W3OKX. W3SAE after working all night proceeded to Bristol Red Cross Headquarters to aid W3DOU. W3YJM was activated Saturday and requested an assignment. The Doylestown Radio Control was notified he was coming and he was advised to proceed north on 611 to the Reigelsville area in search of boats which were supposedly being sent to the stricken area. He passed through Upper Black Eddy which had been severely hit by the flood. Both the Army and local fire companies were busily engaged in the rescue operations. W3VVS was already there on the scene and was assisting with communications. The terrain along the Delaware in this area required that relay stations be set up.. W3YJM parked at the top of the hill and operated relay between the Doylestown and Upper Black Eddy rescue operations. He also assisted several other stations. W3QQH, W3BGR, W2OAF, W3SUG were operating in towns to the north throughout the day. Reams of messages were handled by the Upper Black Eddy group including requests for food, drinking water, cots, blankets and orders for rescue teams to report to other stricken areas where they were needed.

SUNDAY OPERATIONS - August 21, 1955

W3SAE reported for duty again Sunday morning and was dispatched to relieve W3OWX. He found Yardley was having difficulty in maintaining contact with W3SSU since W3VWX was shut down -- no relief. W3MVG had a fixed station at the Yardley Fire House, but was having difficulty communicating with W3SSU. W3SAE was relieved by the arrival of W3IRS and W3RQZ with the emergency mobile trailer at about 8 P.M. National Guard troops arrived about this time, and the Phil-Mont Club proceeded to withdraw from the major portion of the operation.. W3CNO assisted by W3URS, W3URT, W3URU and W3WML arrived at Doylestown Court House for assignment Sunday afternoon and left with a convoy of three cars for the Stroudsburg area. Two other cars

OCTOBER 1 1985

THE PHIL-MONT "SIMULATED" DISASTER From the Oct. 1955 BLURB

In 1949 the Phil-Mont Mobile Radio Club of Philadelphia area was organized with five members. Today, five years later, it is one hundred strong with a like number of mobile and fixed amateur stations in operation. Activities in these five years centered about transmitter hunts, parade direction, and civilian defense drills in preparation for any emergency that may arise.

To document its activities and to display to the public in general the volunteer services which are available in time of need, a motion picture film in the formulation stage required a "simulated" disaster to portray emergency operations. Any make-believe disaster would do; a fire or an accident would be fine.

No one anticipated the night of Thursday, August 18, 1955. Hurricane Diane was staggering hesitatingly up the east coast and was pretty well blown out -- no need to get excited over a dying windstorm. And then it hit! Rain! Driving, biting, brick saturating, motor fouling, windshield wiper stopping rain. Hours of it. Six inches overnight! She dumped over 100,000,000 gallons per square mile. Diane made her last dying gasp solely felt. Think of it! Where could all that water go? Thousands of people in Eastern Pennsylvania in the Doylestown-Stroudsburg area can tell you where it went. Twelve to twenty feet of it right through their kitchens and living rooms, if there was a house left to go through.

Phil-Mont had its disaster documented, but not quite in the way it was planned.

Let us change the tone of this writing a bit to report to you how five years of concentrated practice was put to use by the Phil-Mont Mobile Radio Club.

THURSDAY NIGHT OPERATIONS - August 18, 1955

Eastern Pennsylvania suffered a torrential downpour all evening and into the night. During the normal activities of Phil-Mont on Channel No. 1, W3EM, W3FUY and W3SSU at the Doylestown CD Headquarters were heard. They left headquarters for a boys' camp on the Upper Delaware River at Treasure Island to assist in the evacuation of campers. The gravity of the situation was not immediately recognized. There was considerable local radio activity however, W3QQH, W3AUF and W3VVS were busily pumping out cellars with the local fire company. At midnight W2DKA mobile called in on Channel 1. He reported the Route 611, Neshaminy Creek, bridge was washed out. There was a line of cars backed up as far as he could see. They weren't able to get into Doylestown and the only phone in the area had about 30 people in line waiting to use it. W3QV arranged to take traffic from the people stranded at this washout. He, in turn, passed it on to other stations in the Phil-Mont net who distributed it throughout the Philadelphia area.

Continued on page 13

FRIDAY OPERATIONS - August 19, 1955

By 2 A.M. Friday morning the seriousness of the situation was recognized and a continuous guard was placed on a Phil-Mont channel by the Club members. W3MVG, Assistant Radio Officer in Bucks County, requested help on the channel trying to get W3SSU at Doylestown. He drove around the Trevoze, Langhorne and Bristol areas and advised that the situation was very serious. W3MVG located Mr. Ferguson, a member of the Red Cross Disaster Team, and an emergency communications system moved into operation. A Red Cross net, including many mobile stations, was planned for strategic locations. W3VXN arrived at the Neshaminy School, Red Cross Headquarters, at 3 P.M. W3UIX drove to Bristol to set up a fixed station. W3VWX volunteered to assume net control for the Bucks County area at a fixed station at Langhorne. W3VWX remained on the air continuously for over thirty hours and coordinated Bucks County communications. Between 3 and 5 P.M. W3MVG and Mr. Ferguson made a survey of the river towns and realized that the water would rise and flood all river areas. W3MVG informed Langhorne and Bristol Red Cross personnel by radio that assistance would be needed. W3UIX operated until early Saturday morning at Bristol. W3NIP coming home from work Friday night requested that his wife be advised that he would not be home that night and went to the Croydon Fire House and then onto Bristol. W3GIF and W3AUF went to the Newport Fire Company to assist. Late Friday afternoon it became obvious that a large net operation was necessary. One hundred Phil-Mont mobile radio stations, transmitters and personnel were pressed into service to assist in the operation as fast as they could be recruited. Channel 2, 29.626, was designated as an operation frequency and sounded like a bee hive. Channel 1, 29.493, was designated as a recruiting frequency to organize the volunteer group throughout the disaster area. Governor Leader activated CD Friday evening. W3EM, Bucks County Radio Officer, was advised of the activity on the Phil-Mont channels. He requested that we carry on with the emergency organization that was set up. It was realized at this time that Eastern Pennsylvania emergency communications would be necessary for several days. W3SAE, in contact with W3QV, was advised to report to W3SSU Doylestown Court House. He was assigned to relieve W3HQJ at the Yardley Fire House. W3SAE and W3VXN worked all night at Yardley using W3VWX at the Langhorne Control Station as a relay. W3CNO proceeded to Langhorne and was assigned by W3VWX to the Neshaminy High School Red Cross Center. He was assisted by W3URU and was relieved by W3BYB.

Continued on page 14

Continued from page 5

10 Meter AM was used for communications back to the Philadelphia area for personal traffic and to arrange operator assignments and scheduling. Communications with mobiles was also done on 10 Meter AM.

Operation continued into Monday at which time CD advised that we could secure. As John stated, "how does one get close up to it if one lives in comfortable Philadelphia?" The answer is simply this: Phil-Mont Mobile Radio Club.

F.A.G.

NEW NET COMING!

At the Directors' meeting in September it was voted to discontinue the Sunday morning CW and AM nets due to lack of interest. (Please see the meeting minutes elsewhere in this issue.) That's the bad news.

The good news is that there will be a new net beginning in January. Our venerable member W3 Sweet Ginger Rogers will be the NCS for a new FLORIDA SNOW BIRD NET every Sunday morning on 20 meters. The time and frequency are still not firm, but our suggestion to you is to get your 20 meter gear and antennas tuned up before the bad WX hits, 'cause you won't want to miss this one! More details later.

**** UPDATE ****

NOVEMBER 4, OLE TIMER'S NIGHT! General Meeting program: A special Fells Planetarium presentation of "THE COMET IS COMING" arranged by our own WB3BOD, Paul Twomey. Everyone's welcome!

This year we'll again be serving a buffet dinner before the meeting, but if you didn't make your reservation by the deadline of October 28th, you're still welcome to attend the 8:PM meeting and the planetarium show!

NOVEMBER 11, Volunteer Examination session at 18:30 sharp at the Institute. (Rescheduled from the 4th due to Ole Timer's Night.)

DECEMBER 2, ELECTIONS ELECTIONS ELECTIONS!!

JANUARY 6, General Meeting program: To be announced.
